ECO BYTES

April 22, 2016

UPDATES FROM CET

In case you weren't aware, today is Earth Day! Since its inception in 1970, Earth Day has grown from a national holiday to a global holiday, and the Center for EcoTechnology is proud to have grown along with it! For 40 years, we have been helping people and businesses save energy and reduce waste. In celebration of Earth Day, check out these five Go Green tips:

1. Get a [no-cost home energy assessment](#) with Mass Save@!
2. Make your home more airtight with air sealing, then insulate.
3. Donate, shop, and deconstruct with [EcoBuilding Bargains](#).
4. Recycle. You can contact [RecyclingWorks MA](#) for assistance!
5. Donate to the Center for EcoTechnology during [Valley Gives!](#)

which will be counted on the official [Valley Gives Day](#), May 3!

From all of us here at the Center for EcoTechnology, thank you so much for your efforts to help us build a cleaner, greener future. Happy Earth Day!

Go Green News

DIANA

Outreach EcoFellow Diana Vasquez wears many hats on any given day. From teacher to coordinator to TV star, [see what she's been up to!](#)
