

ECO BYTES

Special December Issue

This winter, while everything around you is white, make your energy green!

Choose [New England GreenStart](#) or [New England Wind](#) to make your electricity supply 100% renewable, and take advantage of great pricing and rebates to purchase an electric vehicle through [MassEnergy's DriveGreen program!](#)

Remember, this holiday season you can also [give renewable energy as a gift!](#)

3.8 cents/kwh in addition to basic service charges (just 74 cents/day on average!) for 100% wind power from Massachusetts turbines.

100% tax-deductible.

Your membership helps develop new MA wind power!

2.4 cents/kwh in addition to basic service charges (just 45 cents/day on average!) for 100% wind power, solar power, cow power (diger gas), and low-impact hydro.

100% tax-deductible.

All sources are from New England!

In proud partnership with [Mass Energy](#).

Happy Holidays from all of us at CET!
