

ECO BUILDER

Resources for green
building professionals.

March 2017

Kick Off Your Building Season With CET!

Five Reasons We're Right for You:

1. We're a non-profit.

When you work with us you know our priority is our community and delivering the best possible product.

2. We price ourselves fairly.

We offer the best service options at competitive prices.

3. We're the area experts.

Builders throughout New England depend on us to meet their efficiency targets- from meeting energy code to zero net energy. We are currently offering Massachusetts energy code training. [Sign up today!](#)

4. We provide one-stop efficiency.

We can help you with [HERS Ratings](#), plan review, [LEED](#) consultation and certification, diagnostic testing, [Passive House](#) rating, energy modeling, [ENERGY STAR](#) consultation and certification, [code compliance](#), [and more!](#) And we can meet your needs on short notice.

5. We work with a wide variety of projects.

We are energy efficiency experts in residential homes and multi-family development projects. We can help your commercial projects meet your energy efficiency goals.

Learn more about our services and read our high efficiency case studies listed below!

The Center for EcoTechnology is here to help builders, architects, and HVAC professionals with high performance goals to achieve optimum energy efficiency in their residential new construction or full renovation projects.

Call CET for assistance with meeting energy code requirements, earning utility incentives of up to \$4,500 per home, or achieving a green building certification!
